Transaction Based Journey

The case for a focused pilot that makes value visible, reduces friction in ordering

FROM ONE-SIZE-FITS-ALL TO INTENT-LED ORDERING

Simplified commerce journeys shaped around customer Intent / Customer Type / Industry

The proposed journey makes value visible earlier, clarifies pricing and promotions, and removes avoidable effort

SB MOBILE

BYOD EXPERIENCE

Relevant, eligible offers appear immediately before effort is required

We are picking BYOD to find the value and deliver the planned experience

SB CABLE

INDUSTRY / FIXED BUNDLE EXPRESS CHECKOUT

To build tailored journey based on Industry type and Fixed bundle for business needs

THE SHIFT Make value visible first, then guide customers through one simplified transaction.

CONVERSION OPPORTUNITY

The biggest opportunity appears after eligibility is confirmed

OPPORTUNITY

Last 68 Days

ELIGIBLE

1,204

Confirmed eligible + compatible

CONFIRM

709

Committed to order

OPPORTUNITY | The audience we want to capture

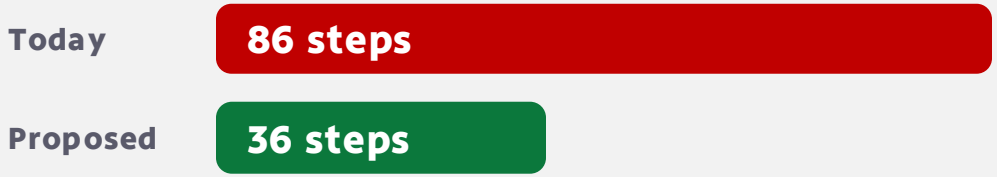

- 495 Dropped (41.1% of Eligible IMEI)

Even a modest lift in this drop-off point adds meaningful volume, every month

- **20%** of dropped users convert → **+44 orders/mo**
- **25%** of dropped users convert → **+55 orders/mo**

SIMPLICATION OF STEPS

4 BYOD LINES

145.7% More clicks today

59.3% Clicks saved

7.2min Lost today **if each step takes 5 seconds*

2 BYOD LINES

87.1% More clicks today

46.6% Clicks saved

4.8min Lost today **if each step takes 5 seconds*

JOURNEY + EXECUTION

Four sprints take prototype to a measured state on SB Mobile

Show the end-to-end journey, instrument the outcomes, then scale only after stability and conversion are proven

WHAT WE WILL TEST

Clickable prototype

PREVIEW THE END-TO-END FLOW

The Approach

- Eligible traffic only
- Controlled exposure
- Track conversion
- Drop-off by step

DELIVERY TIMELINE BY SPRINT

Goal >> Launch on SB Mobile, measure success metric, and expand only after stability is confirmed to Resi / Agents

WHY TRANSACTION-BASED ORDERING

One guided journey transforms fragmented BYOD ordering

	Offer discovery	Pricing + promotions	Journey friction	Customer impact
CURRENT BYOD EXPERIENCE	Offers appear only after customers have already invested effort	Line-based value and promotion eligibility are hard to see upfront	Lines are handled one at a time, creating repeated steps	Value arrives late and the experience feels disconnected
PROPOSED BYOD EXPERIENCE	**Relevant, eligible offers appear immediately** **Value is visible before effort**	**Live pricing and benefits update by line count** **Promotion eligibility is clear**	**Context stays connected across every line** **One path from qualification to checkout**	**Value is visible and the experience feels connected**
